Department of Design

School of Engineering, Tezpur University

Tezpur University

Tezpur University was established on January 21, 1994 by an Act of Parliament of India, The Tezpur University Act, 1993 (Act No. 45), as a non-affiliating and residential Central University. The University is located at Napaam, about 15 km east of Tezpur town in the Sonitpur District of Assam. The serene and green University Campus of about 262 acres provides the best of the ambience including modern infrastructure conducive for learning and dedicated research.

The academic programmes offered in the University have a distinct focus on science, technology, management, humanities, and social sciences, reflecting the objective of the University. At present, the University offers a number of Programmes on Under-Graduate Degree/Diploma/Certificate, Integrated Programmes, Post-Graduate Degree/Diploma and Doctor of Philosophy Degree in various Disciplines. The University offers Add-on courses on Yoga and Violin too.

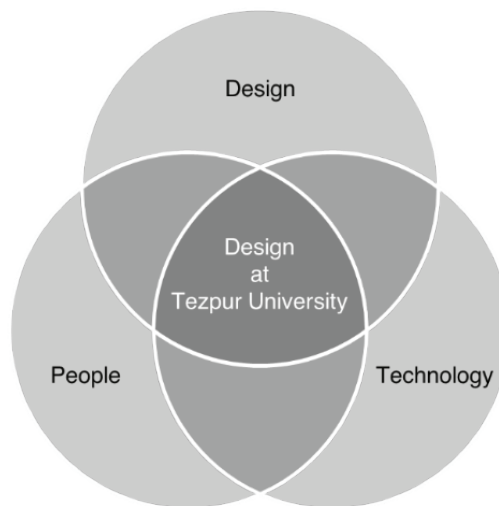

During the last twenty-seven years of its existence, the University has engaged itself in the process of capacity building, both in terms of infrastructure and human resource development. The University has mounted tremendous efforts in developing it into a modern University incorporating all elements from the contemporary scientific and socio-cultural milieu.

The University has already developed a number of state-of-the-art laboratories, computing facilities, internet connectivity, a dedicated power supply system with DG backup and a rich library having connectivity to several digital libraries. Other basic amenities like central water supply, campus security, guest house, canteen, gymnasium, outdoor and indoor sports facilities, post office, banks with ATMs, schools, swimming pool etc., are also available to cater to the needs of the University community.

Being a Central University, it is privileged to receive funds from the Ministry of Human Resource and Development, Government of India, through the University Grants Commission. The University promotes industry-academy alliance.

Department of Design

The Department of Design of Tezpur University was established in 2019 under the School of Engineering. This department aims to train a new crop of trained manpower focused upon social innovation, healthcare, and education. During their design programmes, students will have the freedom to explore other aspects of Design in the fields of textile, tourism, culture, agriculture, forest, handicrafts, etc. The training will focus on solving new emerging problems of society while working at the intersection of **Design, Technology, and People**.

Programmes

The department plans to start

- Master of Design (M. Des.) programme from July 2021.
- Ph. D. in Design programme from July 2022.
- Bachelor of Design (B. Des.) programme from July 2023.

Master of Design (M. Des.) programme

The curriculum of Master of Design (M. Des.) covers specialized courses of Product Design (PD), Communication Design (CD), and Interaction Design (ID). This multidisciplinary approach will train students for different industry domains such as consumer products, agriculture equipment, health-care products, IT-based industries, and design firms. Such an approach will also help students to explore various fields for their future research careers. Deeply rooted in the design fundamentals and design research, the curriculum will train students in the basic design skills and new design research methodologies.

Department of Design

Facilities

Department plans to develop state of the art facilities for prototyping that include:

Digital Prototyping Studio

This studio will have equipment required for digital prototyping like High-end workstations (MAC & Windows) with latest software packages (Solidworks, Rhino, Adobe master suite etc.), Wacom Cintiq Pro for product styling, illustrations, and visual design, high quality Scanners & Printers etc.

Physical Prototyping Studio

This studio will have equipment and materials required to build small prototypes like 3D printers for rapid prototyping, Industrial clay and clay tools, Electronics Work Bench, Woodworking and metal working hand tools and equipment etc.

Product Development Workshop

The workshop will be equipped with heavy-duty machines required for large scale prototypes. The setup requires a larger space. It has three divisions: Woodworking machines, Metalworking machines, and Paint facility.

Communication Studio

This studio will have all the equipment like DSLR cameras, tripods, gimbals, wireless mics, sound recorder, studio lights, and backdrop set-ups.

These studios will be set up before the commencement of the M. Des. and B. Des. programmes. These studios will help students to transform their design concepts into tangible and intangible outcomes/deliverables.
